

The Unpublished Opinions of the Warren Court, 1985, 470 pages, 0195035631, 9780195035636, Oxford University Press, 1985

An important contribution to constitutional literature, this collection of ten unpublished decisions by the Warren Court puts the decision making process of the Supreme Court in a new light. By following the major changes that occur in each case from the circulation of tentative majority opinions to the final issuance of opinion, the book portrays how the justices communicate with each other and how they are influenced by each other's arguments. Interpretations and commentaries by the author illuminate the significance of each case and provide insight into the different judicial philosophies and personal styles of the justices. This book will be of substantial value to law schools, law libraries, bar associations, and lawyers practicing in the field of constitutional law.
